

***Automation Engineering and Control of Complex Systems (Italian Code LM-25)***

**Curricular and educational background requirements:**

To be admitted to this course of study applicants are expected to meet specific curricular requirements and have the knowledge and abilities as follows.

- a) A bachelor's or higher degree awarded abroad. Undergraduates candidates are also accepted providing that they will obtain their bachelor's degree before 15<sup>th</sup> July 2020.
- b) An adequate knowledge in basic subjects as mathematical and numerical analysis, linear algebra and geometry, probability and statistics, physics, chemistry.
- c) An adequate knowledge in the subjects specific of the degree course as informatics, control and systems theory, electronics, information processing.
- d) The ability to use methodological and operational aspects of mathematics and other basic sciences to describe engineering problems.

**Language requirements:**

Good Knowledge of the English language, at least B1 level of the Common European Framework of Reference for Languages attested as follows:

- i. IELTS: overall score 5 or higher;
- ii. TOEFL: minimum total score 60;
- iii. Cambridge ESOL: Preliminary (PET); Business Preliminary (BEC) or higher;
- iv. declaration from the University where the Bachelor's or Master's degree was achieved stating the official language of the course was English;
- v. declaration to be a citizen of an English-speaking country.

Successful applicants come primarily from an academic background in the following Engineering fields: Automation, Electronics, Computer Science, Telecommunication, Electrical, Mechanical and Industrial.

The level of the basic and subject specific knowledge will be evaluated by the student transcript in terms of ECTS acquired and course marks. The methodological abilities will be evaluated by the course projects carried out during the student career or equivalent experiences.
